**DETAILED ACTION**

- 1. Claims 1 and 5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, it is unclear what applicant by “refining materials” does applicant mean that refining includes trimming or setting or both? In step f, it is unclear what “covering up a cover of said mold” means. In claim 5, it is unclear what applicant means by switching the central pad and the outsole. Suitable explanation is required.**
- 2. Claims 2-4 are objected as being dependent upon a rejected base claim.**
- 3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:**

**A person shall be entitled to a patent unless –**

**(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.**

**4. Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Finn et al.**

**Finn et al. teach a method of preparing a outer sole and a central pad of the desired shape and size followed by preheating a mold, placing the central pad in the bottom of the mold, and then placing the outsole into the bottom of the mold thereafter heating and vulcanizing the central and outsole. Applicant's claims do not reflect that the outer sole includes the opening "23" as shown in figure 1 therefore, the process of Finn et al. wherein the outsole is placed on top of the central pad overlapping the pad, reads on applicant's claims and anticipates applicant's invention.[Note Column 2, lines 43-67, Column 3, lines 1-23 and Column 4, lines 11-14]**
